

Free tutoring?

Entitled children, teenagers and young adults have been receiving so-called services for education and participation (Bildung und Teilhabe) since 2011. This includes educational support during extracurricular tutoring.

Your child is already entitled to „Bildung und Teilhabe“? In this case, payment will be covered.

Not sure yet?

We will gladly verify for you, if such a service is available for you and your child and also help you with the application.

Tutoring with Cologne

Lernnetzwerk

Support with all senses

For students of all ages, we offer:

- ☐ Individual, all in all support
- ☐ Motivation by having fun while studying
- ☐ Qualified, committed teaching staff

Individual, integral support – with all senses

Dear parents,

Lernnetzwerk offers support for students, regardless of age or school type. Our experienced teaching staff will provide your children with the help they need, to improve their school performance. To us, „learning with all senses“ is of great importance for a proper, all in all, integral support.

One-to-one teaching and small groups

In our opinion, having fun while learning, is the key to success. During efficient one-to-one or stress-relieved tutoring in small groups (maximum 3 students), we give advice and support to the children at home or at our own business premises.

Lernnetzwerk

Discovering new paths together

With the help individual learning methods, through games and creative exercises, your child will be motivated and encouraged to find new techniques for learning and improving.

Creativity against thinking barriers

With pedagogical basics as their footing, our qualified staff will make individual education plans for each student. Through a focused, dedicated, but still creative and fun approach, we help students to let go off anxiety during learning, lessons and exams.

Tutoring to make learning more fun

With each individual tutoring, we strive for effective results and success. This creates new motivation to learn and improve. We have one goal: To bring your child the joy of learning.
